

Buttermilk Biscuits

BAKING INSTRUCTIONS

Thank you for buying our ready to bake biscuits and supporting us during these unusual times. We hope you and your family are well and that these biscuits brighten your day.

1. Wash your hands.
2. Pre-heat oven to 400F. (350F for convection ovens)
3. Place frozen biscuits on baking sheet spacing them approximately 2 inches apart.
4. Place baking sheet in oven and bake for 25-30 minutes (15-20 minutes for convection ovens) turning the baking sheet 180 degrees half way through.
5. Since baking times can vary with different ovens you may want to open up one biscuit to check the doneness in the middle.
6. Immediately after pulling the biscuits from oven brush the tops with melted butter. In the shop we use a pastry brush and a bowl of melted butter. My grandmother always just rubbed the end of a stick of butter across the biscuits. This is a style choice!
7. Wash your hands.

Keep your knife, there's biscuits!
